INTERNSHIP

OpenCV & Python Internship | iVerto.ai

Completed an internship at iVerto.ai focusing on computer vision and Python development. Gained hands-on experience in image processing, object detection, and real-time vision applications using OpenCV. Worked on practical projects under mentorship, improving problem-solving and coding skills.

PROJECTS

PEOPLE TRACKING & DWELL ANALYSIS

2026

- Implemented real-time people detection and tracking at particular area.
- Measured individual dwell time inside predefined zones for analytics and monitoring.
- Implemented automated video annotation with bounding boxes, IDs, and timers.
- Generated statistical visualizations and dwell-time analysis using Matplotlib.
- Tech Stack:** Python, NumPy, YOLOv8, OpenCV, Matplotlib, ByteTrack.

UMBRELLA ALERT

2025

- Developed a weather-based reminder system to alert users about rain forecasts.
- Integrated weather data fetching using requests and web scraping techniques.
- Parsed weather information from websites.
- Implemented automated email alerts reminding users to carry an umbrella.
- Tech Stack:** Python, requests, BeautifulSoup (bs4)

RESUME FILTER

2025

- Developed an resume parser keyword extraction.
- Extracted skills and keywords from PDF and DOCX resumes
- Generated resume summaries to support faster candidate evaluation.
- Implemented keyword-based candidate search and csv analytics reporting.
- Stored extracted keywords in CSV format for HR analytics and reporting.
- Tech Stack:** Python, spaCy, Pandas, PyPDF2, python-docx
